

---

This is the most showcased pole of the flagship collection. The Distinction 28 is a simple and stylish profile that can comfortably hold medium to heavy weight curtains.

Distinction 28 is perfect for bay windows and bi-fold doors, as the curtains do not conflict with the brackets; allowing for ease of traverse for the curtains.

Available in eleven finishes from heritage shaded white, to a warm antique bronze.

# Distinction 28.

## Distinction 28 Corded

Medium - Heavy Duty

**Left:** D28C shown in Light Gray

**Below:** D28C shown in Antique Bronze

### Profile

COMPATIBLE WITH  
**SURF**

**Pole Diameter:** 28mm

**Forward and Reverse Bends:** 25cm radius

**Surf & Surf Roller Gliders:** 60 and 80mm spacing

**Gradual Curves:** Greater than 1m radius

**Maximum Length (in one piece):** 6m

Can be corded from both sides using the intermediate pulley which will increase the weight carrying capacity of the pole.

Efficient nylon gliders as standard, with the option of rollers. Double overlap arms allow the curtains to remain well-dressed when open.

Discreet top/ceiling fix brackets available.

Strong face fixed wall 'T' bracket with depth adjustment (see page 24).

Option of standard or long wall brackets at no extra cost.

# Distinction 28 Uncorded

Heavy Duty

**Top:** D28U shown in Black Sheen

**Left:** D28U shown in Silver Sheen

**Right:** D28U shown in Shaded White

## Profile

COMPATIBLE WITH  
**SURF**

**Pole Diameter:** 28mm

**Forward and Reverse Bends:** 25cm radius

**Surf & Surf Roller Gliders:** 60 and 80mm spacing

**Gradual Curves:** Greater than 1m radius

**Maximum Length (in one piece):** 6m

Efficient nylon gliders as standard, with the option of rollers.

Double overlap arms allow the curtains to remain well-dressed when open.

Discreet top/ceiling fix brackets available.

Strong face fixed wall 'T' bracket with depth adjustment (see page 24).

Option of standard or long wall brackets at no extra cost.

# Distinction 28 Finials

The end cap finial comes as standard on uncorded Distinction poles, with the option of either sphere or barrel finials. Corded Distinction poles have the barrel finial as part of the cording endset, with the option of sphere finials in addition if required.

Sphere Finial

Optional on Corded and Uncorded poles.

Barrel Finial

Standard on Corded poles, optional on Uncorded.

End Cap Finial

Standard on Uncorded poles.

# Distinction Brackets

Distinction poles can be either face/wall fixed or top/ceiling fixed. The adjustable face/wall brackets allow ease of fitting - the 'T' brackets are mounted to the wall first and then the adjustable arms (which come already fitted to the pole), can be slid into the backplates. If necessary, the bottom of the face fixed back plate can be modified so that the bracket is reduced to 3cm in height.

Face/Wall Fix

Top/Ceiling Fix

---

With a narrow and rectangular profile, the Distinction 34 offers a sleek accent to a window dressing.

The Distinction collection is perfect for bay windows and bi-fold doors, as the curtains do not conflict with the brackets; allowing for ease of traverse for the curtains.

**Maximum Length (in one piece):** 6m

Efficient nylon gliders as standard, with the option of rollers.

Double overlap arms allow the curtains to remain well-dressed when open.

Discreet top/ceiling fix brackets available.

Strong face fixed wall 'T' bracket with depth adjustment (see page 24).

Option of standard or long wall brackets at no extra cost.

---

The Distinction 20 is a slim and discreet pole, perfect for voiles. It is often used as the rear pole on a double pole system.

Distinction 20 poles are only available as uncorded.

# Distinction 20.

# Distinction 20 Uncorded

Heavy Duty

## Double Pole System

For a stylish finish that still maintains privacy, consider a double curtain pole system. These systems can be used with angle bends and gradual curves.

Typically, the front pole holding the fuller curtains is created from the Distinction 28, with the slimmer Distinction 20 as the rear pole.

A: Top of the pole to eye of the glider	D28	D34	D20
Standard Glider	33mm	41mm	24mm
Surf Glider	33mm	41mm	24mm
Roller Glider	33mm	43mm	26mm
Surf Roller Glider	38mm	46mm	29mm

Wall Brackets (40mm depth adjustment as standard)	Standard Adjustable Bracket	Long Adjustable Bracket (use for double system)
B: Wall to centre of pole	75 - 115mm	140 - 180mm
C: Distance between front and back poles on double pole system	N/A	70mm*

These measures are an indication and could be subject to change if there are component supply issues etc. We strongly recommend that the poles are fitted and measurements taken before the curtains are made.

\*This bracket can be modified to allow for Surf 60 to be used on the front and rear pole upon request

D34 recess bracket (uncorded only)

D28 recess bracket (uncorded only)

D28 connecting bridge and optional colour matched cover

D34 connecting bridge (no cover available)

D28 intermediate pulley including colour matched cover - this increases the weight carrying capacity of the pole.
